Key Data Protection Features

USB Device Security

CopyNotify! blocks unauthorized Data Transfer to external USB storage devices such as Flash Drives by allowing the usage of only white listed (approved) USB devices in office. The software allows you to deny copying of files onto USB drives by granting READ ONLY Access as well as protects your system against USB Auto Run Malware.

Application Audit Alerts

Get notified when an employee installs software on any PC in office as well as receive alerts when software is being uninstalled from any computer on the network. These application install and uninstall audit alerts of CopyNotify! also assists you in maintaining regulatory compliances as well.

Block Sending of Data Attachments

CopyNotify! monitors and blocks the uploading of data attachments via Web Mail Clients in office. Sending of files via Web Based Social Media applications can also be disabled by the software thus reducing the threat of a data breach due to unmonitored uploading of data via the internet.

Disable Registry Editing

CopyNotify! disables the usage of Regedit hence restricting users from tampering registry settings. Safeguarding registry settings is crucial for applications such as anti-virus, firewalls and other applications which ensure the smooth running of the computer.

User Account Monitoring

By monitoring User Logon Information such as privilege level, user account activity after office hours or remote logons CopyNotify! enhances the state of security compliance in office. By keeping track of accounts getting locked out and invalid logons, CopyNotify! helps in identifying possible hacking attempts on the office network.

Bluetooth / Portable Modem / WIFI Data Transfer

CopyNotify! Restricts the unauthorized data transfer communication attempts between devices such Smart Phones/ Tablet Devices and computers on the office network by disabling Bluetooth. CopyNotify! can also block unauthorized internet access by disallowing the usage of portable modems, data cards and Wifi.

CD / DVD Devices

CopyNotify! disables CD / DVD Writes across all computers on the office network hence restricting the unauthorized copying of data on removable CD/DVD media.

Green Data Protection

Reduce Energy Bills

CopyNotify! saves electricity by automatically shutting down computers which are left idle and switching off computers that have been left ON after office hours.
